In the sun and the moonlight

SUN

The things that happen during the day. Enjoy the sun's warm rays, the sea, the golden sand and fun activities.

Welcome to the Alua sun experience

MOON- LIGHT

When the silhouette of the moon starts to appear in the sky and night envelops our life with music and fun.

Welcome to the Alua moonlight experience

A wide-angle photograph of a coastal scene. The foreground shows a sandy beach with gentle waves washing onto it. The water is a vibrant turquoise color, transitioning to a deeper blue further out. In the middle ground, a prominent cliffside made of reddish-brown earth and rock runs along the coast. On the right side of the cliff, there are several modern buildings with large glass windows and balconies. The background features a clear blue sky and distant, hazy mountains.
